---

Sabrina,

I have attached the updated water quality spreadsheets, with anions charts added. As they are formatted now, the charts can be copy/ pasted directly into a powerpoint slide.

Barry is working on the quickscore. He is out of the office right now, so I will give you an update on the progress when he gets back. I am working on the text and tables. We should be able to get you a report early in the week of the 18th. Joe Gilbert had his baby and is out of the office, but Jeremiah should be able to get the figures together for us. The validated data will also be put into scribe and published.

Let me know if you need anything else in the interim.

Thank you,

Megan J. Adamczyk
